THE TALENTED SPECIALIST
FOR EVERY WORKGROUP.

DESIGNED TO GET EVERYTHING ACCOMPLISHED.

Complete flexibility in how you deal with your office document workload. The new KYOCERA TASKalfa multifunctional devices have all the options you need to do just that. Intelligent, highly reliable technology ensures that all users get their jobs done quickly, the first time and every time.

DESIGNED TO MEET ALL YOUR OFFICE NEEDS.

Easily integrated into any work environment, the new multitasking TASKalfa 300i will efficiently handle all demands set by your workgroup or department. Regardless of whether it is being used as a copier, network printer, full-colour scanner or, optionally, even as a fax, the entire range of functions are easily and quickly accessible through the intuitive command structure on the wide-screen colour touch panel. Generous performance is provided with an output of 30 pages per minute as well as the document processor that scans up to 50 ipm in b/w and 15 ipm in colour. Capable of holding up to 2,200 sheets, the TASKalfa has enough reserves to handle even larger workloads. With security features that meet the highest standards to protect all of your work, the TASKalfa 300i is the perfect network device for any workgroup.

HIGHLIGHTS TASKalfa 300i:

- ▶ Up to 30/15 pages per minute A4/A3 in b/w
- ▶ 2 GB RAM + 160 GB HDD memory and storage
- ▶ Standard network printing, colour scanning and duplex printing
- ▶ Expandable dual fax ports and internet fax
- ▶ Individual paper-handling and finishing options
- ▶ Enhanced security functions
- ▶ Long-life components provide exceptional efficiency and reliability

FULL-SCALE INTEGRATION INTO YOUR WORKFLOW.

HyPAS™

It's simple: greater flexibility means optimised office workflow and efficiency. HyPAS™, KYOCERA's new software development platform, provides more flexibility than ever before. Embedded in the TASKalfa 300i, HyPAS™ combines Java based programming with web service technology so that these multifunctional devices can work efficiently both with applications embedded within the device or those based on an external web server. This makes it much easier to optimise workflows by customising the device panel and making these devices a part of automated, company-specific processes. Regardless of whether security options and structures, document routing, accounting functions or other document management options, all functions (print, copy, scan and fax) can be altered to support your company's processes and demands.

RESPONDS TO EVERY TOUCH.

The large touch screen panel offers optimal operability. Optimised for perfect response to every touch, the panel offers a large easy-to-read display. With a highly intuitive layout and in full colour all functions are easily accessible.

THE INTELLIGENT OFFICE ASSISTANT.

The TASKalfa 300i provides fast, cost-effective document management for all sizes of workgroups. Intelligent technology and software ensure that all print, copy, scan and fax functions operate with the greatest precision and efficiency and that this multifunctional device integrates perfectly into your company's network environment. So no matter how you organise your office, the TASKalfa 300i will be an integral part of the entire process, making your work go smoother.

PRINT – CLARITY WHERE IT COUNTS.

As a highly reliable network printer, the TASKalfa 300i image processing technology always provides clear, professional printouts. With a printing speed of up to 30 pages per minute for b/w A4 prints and up to 15 pages per minute in A3, this multifunctional device easily handles all standard office demands. KYOCERA's long-life technology makes this device especially reliable so that you can depend on TASKalfa 300i to put that professional quality at your disposal whenever you need it.

COPY – AS MANY AS YOU NEED.

The TASKalfa 300i produces excellent copies – quickly and conveniently. Intelligently structured commands mean that making copies is usually just a one-touch affair. The wide-screen, colour touch-panel provides convenient thumbnail images of documents stored on the device so that employees can print out standard company documents stored on the TASKalfa HDD without going back to their desks. A great time saver for any office.

SCAN – GETTING YOUR INFORMATION ONLINE.

Converting paper documents into digital files is simple with the TASKalfa 300i. This efficient scanner works at a speed of up to 50 ipm in b/w and 15 ipm in colour at a resolution of 300 dpi. Simply choose the scan-to-server, scan-to-email or scan-to-USB to have the documents delivered wherever you need them. And when security is important, the TASKalfa 300i offers an encrypted PDF function that ensures that the scanned file can only be opened when a pre-selected password is used.

FAX – SIMPLY PRESS 'SEND'

Sending legally binding originals to your business partners while preparing copies for your own files. For the multifunctional TASKalfa 300i nothing could be easier. With all of the functions you expect from an efficient fax machine, the TASKalfa fax option offers broadcast sending, timer-based transmission, fax forwarding and much more. And if costs are an issue in your company the TASKalfa 300i is also available with an optional fax via internet function that will help to keep your communication costs low.

INFORMATION SECURITY – PROTECTING YOUR BUSINESS.

Data protection has become one of the major concerns of most companies. To safeguard against potential security risks, these models come with IPsec, IPv6 and PDF encryption as standard. For even greater security, KYOCERA's Data Security Kit effectively deletes all data stored to the hard disk during the print, copy or scanning process. And by adding the Document Guard Kit, companies can ensure that documents embedded with the print guard pattern cannot be copied, scanned or faxed from any TASKalfa device that has the kit installed.

PAPER HANDLING OPTIONS

FOR THE RIGHT FINISH.

The TASKalfa 300i offers a range of handling options that can make all of your paper handling run much smoother. Whether you choose the optional document processor or document finisher, the task is carried out quickly and precisely. If your workgroup handles larger quantities, simply add additional paper cassettes to increase the paper supply to up to 2,200 sheets. No matter how your office carries out its document management – you can do it better with the TASKalfa 300i.

The reversing document processor DP-670(B) saves time by carrying out fast, efficient scans of double-sided originals.

The internal finisher DF-670 (B) staples up to 30 sheets and has a staggered output – all you have to do is distribute the documents.

The job separator JS-670(B) separates printouts, copies and faxes – for fast allocation even in busy departments.

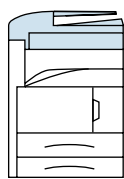

The finisher DF-780(B) is economical and efficient, offering professional finishing of up to 1,000 sheets. Complete with a face-down tray, staples up to 50 A4 sheets.

The paper feeder PF-680 is an optional paper cassette floor unit that is ideal for larger work loads, offering an additional capacity of 2 x 500 sheets.

The built-in multi-purpose tray can be used as a space-saving paper feeder for a paper capacity of up to 200 sheets, handling paper weights up to 200 g/m².

Base version

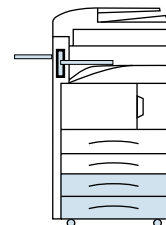

Two 500-sheet cassettes and a 200-sheet multi-purpose tray provide a generous paper reserve. The optional document processor DP-670(B) automatically reverses the original for easy double-sided scanning and copying.

Basis configuration with DP-670(B)

Flexibility

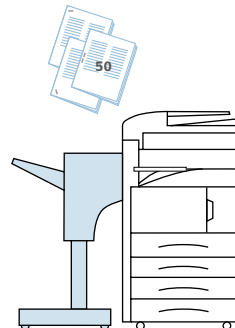

Two additional 500-sheet paper cassettes enable fast, convenient access to multiple paper types. The 500-sheet internal finisher DF-670(B) staples maximum 30 sheets in one position.

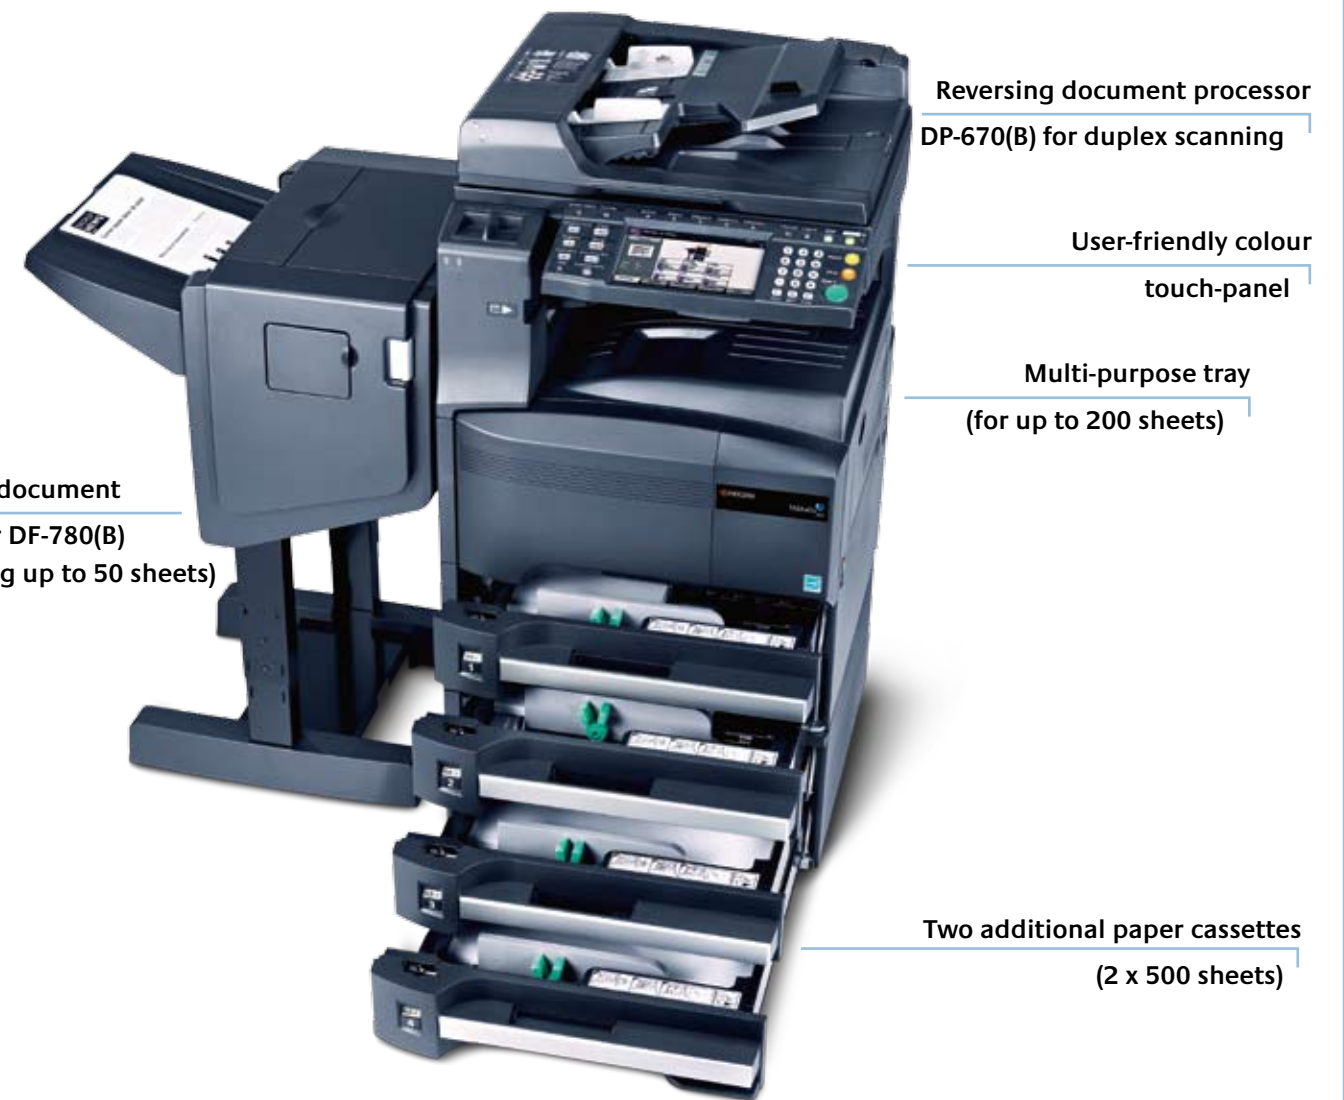

PF-680 + DF-670(B)

Basic finishing solution

Gives your documents a professional finish – the 1,000-sheet finisher staples in three positions.

DF-780(B)

Optional document finisher DF-780(B) (stapling up to 50 sheets)

Reversing document processor DP-670(B) for duplex scanning

User-friendly colour touch-panel

Multi-purpose tray (for up to 200 sheets)

Two additional paper cassettes (2 x 500 sheets)

COUNT ON US.

As one of the leading manufacturers of office document solutions, KYOCERA is committed to delivering consistently high-quality products and services. We not only provide you with the most reliable hardware and software, but also offer exceptional service, comprehensive consulting and tailor-made financing. Whatever your needs – you can count on us. Want to know more? Simply get in touch with your local KYOCERA Business Partner.
