Methods for cleaning up : Sweep up or vacuum up spillage and collect in suitable

container for disposal.

Avoid dispersal of dust in the air (i.e., clearing dust surfaces

with compressed air).

Dust deposits should not be allowed to accumulate on

surfaces, as these may form an explosive mixture if they are

released into the atmosphere in sufficient concentration.

**SECTION 7: Handling and storage** 

7.1 Precautions for safe handling

Technical measures : Static electricity may accumulate and ignite suspended dust

causing an explosion.

Provide adequate precautions, such as electrical grounding

and bonding, or inert atmospheres.

Advice on safe handling : Do not breathe dust. Do not swallow. Avoid contact with eyes.

Handle in accordance with good industrial hygiene and safety

practice.

Minimize dust generation and accumulation.

Keep away from heat and sources of ignition.

Take care to prevent spills, waste and minimize release to the

environment.

Hygiene measures : When using do not eat, drink or smoke.
